cabolo® interview kit

The portable kit for audio/video recording and automatic reporting

**PLUG & PLAY PORTABLE SYSTEM,
ALL-IN-ONE AUDIO, VIDEO, AND TEXT
SIMPLE AND SECURE**

cabolo® interview kit

The portable kit for audio/video recording and automatic reporting

Keeping track of discussions during meetings, interviews, interrogations, and hearings becomes easy with the **CABOLO interview kit**.
The system records, transcribes, indexes, and stores audio/video recordings thanks to a unique hardware and software system, with on-board Artificial Intelligence, to ensure maximum efficiency and data security.

Easy and ready-to-use

Simply switch it on to work. It allows you to record the audio even in unequipped rooms.
Everything you need is inside the trolley, making the system complete and transportable.

Definite speaker identification

The report produced is ready to use: the speakers are uniquely identified, for each one what is stated is precisely reported, synchronised word for word with the audio and video recording.

record   transcribe   translate   synchronise   index   catalogue

Reliable and secure

The **CABOLO interview kit** requires no internet connection and offers maximum security
All data is processed and saved locally (no external services or connections required), and can be protected with AES-256 bit encryption.
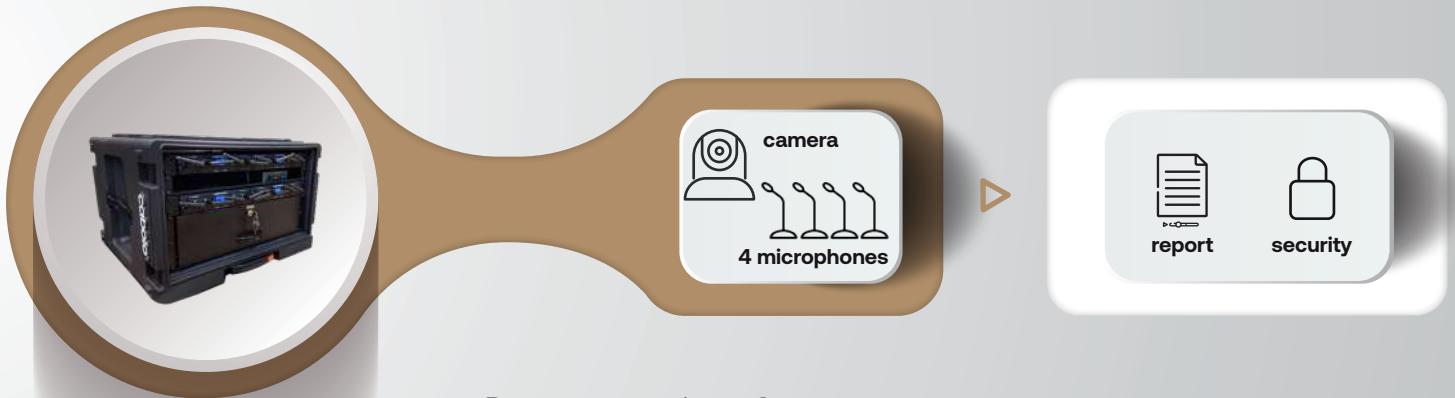

Multi-language recordings

The **CABOLO interview kit** is multilingual. Thanks to its artificial intelligence core, it recognises and transcribes over 30 languages. It also translates, in real-time, into 60 languages.

cabolo® interview kit

Components of the Kit

The **CABOLO interview kit** is the ideal portable solution for consultations, interviews, and hearings, perfect also when confidentiality needs to be ensured.

camera

4 microphones

report   security

Base set consists of:
- Microphone set with four CABOLO-certified wireless microphones (expandable)
- One CABOLO central hardware device for automatic report taking
- One fly case (trolley) for transport and immediate use (plug&play) without internet connection
- CABOLO software licences (speaker recognition, automatic transcription, automatic translation)

Accessories:
- CABOLO Camera

The CABOLO interview kit uses CABOLO® technology, the only fully autonomous and self-consistent Artificial Intelligence enriched solution that processes information locally without any need for connection to external services. CABOLO, using the most recent Deep Neural Network, Machine Learning, and Natural Language Processing methodologies has been profiled in Gartner's market researches for:

- **Vendor ID Toolkit for Natural Language Technologies, 2022**
- **Hype Cycle for Natural Language Technologies, 2021**
- **Hype Cycle for Frontline Worker Technologies, 2021**
- **Market Guide for Speech to Text solutions, 2020**
