

cabolo[®] one

**Record, transcribe, synchronise, index,
and translate any audio-video
in real-time with maximum security**

cabolo[®] one

The comprehensive and offline solution for seamless real-time recording, transcription, translation, and indexing of both audio and video.

CABOLO One stands as the unique device integrated with Artificial Intelligence, meticulously crafted to deliver optimal data protection without the need for any internet connection. It ensures absolute confidentiality and security, prioritising the safeguarding of information.

CABOLO One delivers the processed recordings in different formats with synchronised audio and text, so every single word can be found by listening to the original audio again.

CABOLO One supports over 30 languages and translates into over 60.

From words to CABOLO

Ideal support for board meetings, business interviews, consultations, and training sessions where note-taking, record keeping, data privacy, portability, and archiving are fundamental.

cabolo[®] one

Artificial Intelligence at your fingertips

Security

No network connection required. Contents always stay in the device, encrypted, and secure.

Indexing

Saves each word and meta tags it, allowing any information to be searched, retrieved, and listened to in a split second.

Multilingual

Optimised transcription thanks to automatic language identification (LID). Recognises and transcribes in over 30 languages and translates into over 60

Customisable

Customisable language models for the client's needs. Integrations with professional audio-video systems

APIs

APIs are available for maximum integration flexibility with both audio-video and control systems

Output

Get documents in MS Word, XML and the multimedia CABOLO file format with synchronised audio-text and speaker identification

Compatibility

Compatible with any audio-video solution available (supports the DANTE protocol)

Return On Investment

Immediate turnaround time. The ROI is between 2 to 4 months thanks to dedicated offers for every need.

Note taking? Leave it to CABOLO!

CABOLO One uses CABOLO® technology, the only fully autonomous and self-consistent Artificial Intelligence solution that processes information locally without any need for connection to external services. CABOLO uses the latest Deep Neural Network, Machine Learning and Natural Language Processing methodologies and has been profiled in Gartner market researches for:

- Vendor ID Toolkit for Natural Language Technologies
- Hype Cycle for Natural Language Technologies
- Hype Cycle for Frontline Worker Technologies
- Market Guide for Speech to Text solutions
- Competitive Landscape
